Could you please send us the complete data packages, in particular copies of the indoor air sample chromatograms and the QA/QC standard chromatograms, for all the indoor air and soil gas sampling results.

Thanks

Carolyn

Jack and Carolyn – Could you please let us know your respective availability for a meeting with regard to this matter? Seems like the time is right to regroup in person on where we are headed with this property, whether/when the continuous, ongoing costs can finally be ceased, and what is the ultimate endgame and the anticipated path to reach that point?

We also need a clearer understanding on, among other things, the respective roles of EPA and DEP on this site, which, as you know, has already been remediated and closed in accordance with the MCP.

Thank you in advance.
